Reupert Heating and A/C

Reference Letter

We have had a excellent working relationship with Reupert Heating and Air Conditioning since I have been the parish Business Manger since 1991. The Reupert employees have serviced our many units for over 30 years.

When I purchase any large item, I want to know more as much about the service department as the item. It is the service department that keeps your machinery working in good order. Reupert stands behind keeping everything working smoothly and are prompt in coming as soon as I call. We have over 2200 families in our parish so our facilities are extensive. We also have 866 children in our school and cannot operate if the heating systems are not working properly.

Joe Reupert is now my main contact and he also sits on our Building and Grounds Committee and has helped us in many ways even when his company did not get a particular contract. He donates a lot of his time to our parish by volunteering during our festival as he is a parishioner as well.

I would highly recommend Reupert Heating and Air Conditioning both as a commercial need and a home replacement. I have told a number of my friends and family as well as other business managers that they owe it to themselves to at least get a bid from Reupert before they purchase a new system.

I would be happy to be a reference for Reupert. My direct phone number is 513-347-2201.

Thank you.

Diane Williams
Business Manager
